Biography

Cem Ünsalan is a full professor at the Department of Electrical and Electronics Engineering at Marmara University, Turkey since 2017. Prior to joining Marmara University, he worked the Department of Electrical and Electronics Engineering at Yeditepe University for 14 years as a faculty member. He also served as the department head for four years there. Dr. Ünsalan received his BSc degree (1995) from Hacettepe University, Turkey; his MSc degree from Bogazici University, Turkey (1998); and PhD degree (2003) from The Ohio State University, USA.

Dr. Ünsalan has published four books on microcontrollers and FPGA systems. The three microcontroller books are on Texas Instruments MSP430 and MSP432 microcontrollers, and Arm Cortex M architecture. The FPGA book is on Xilinx's Artix7 FPGA chip. All these books aim to introduce basic embedded system concepts through practical applications. He has also published books on computer vision and image understanding.
